

Environmental protection is key!

As a production company we look at the entire life-cycle:

- The origins of raw material
- The production of fine paper
- The converting process
- Transports to & from production units
- Product consumption and recycling (90% of our waste is recycled)

We actively work towards sustainability by:

- Improving production methods to minimize the environmental impact of emissions
- Working to eco-label as much of the range as possible
- Influencing suppliers and customers to design their products with priority on the eco-cycle approach and conservation of natural resources
- Raising knowledge and awareness of environmental issues among all employees

Light Packaging Solutions for E-Logistics & Industry

Professional – functional – efficient

Bong - the packaging experts

The Swedish Bong Group is one of the leading European suppliers of specialized packaging and envelope products. Dating back to 1737, Bong has built up extensive experience and knowledge of making and selling paper-based products.

In our Light Packaging division, we have gathered our know-how in business areas that focus on customer-specific packaging solutions. Bong is your partner for packaging solutions that exactly meet your individual needs and requirements. Whether you are in e-commerce or industry, Bong Light Packaging can help you.

Benefit from a packaging specialist, who has production units and printing facilities all over Europe, offering a variety of packaging products – both standard and customized.

We are here to bring your packaging to life!

Our light packaging solutions

Discover packaging solutions and brands, which stand for quality, professionalism and excellent functionality!

e-Green e-commerce mailers

e-Green mailers are designed to meet the needs of online shops. They are made from 100% strong FSC® kraft paper and thus fully recyclable and biodegradable. As the bags adjust to the content, no unnecessary volume or air is being transported. e-Green helps you to reduce packaging volume, weight and material. Equipped with two adhesive strips, the mailers are suitable for return shipments.

e-Green is the efficient solution for goods, which do not require a solid packaging, such as clothing, shoes, accessories, cosmetics, consumer electronics and prepacked goods.

e-Green®
PACKAGING BY BONG

Tyvek
For greater good.

Tyvek® flexible packaging

DuPont™ Tyvek® is the smooth white secure and elegant material that is tear, burst and water resistant. At the same time it is lightweight, elegant, flexible and 100% recyclable – a unique combination of features.

Our Tyvek® packaging solutions are true packaging all-rounders, protecting valuable, important contents on their way to the recipient. When you mail documents or correspondence in a Tyvek® pocket, you send out a message of care and professionalism. When you ship bulky and heavy items in a Tyvek® expander, you can be sure it will arrive in pristine condition.

AirPro®

AirPro bubble mailers

AirPro bubble mailers deliver high quality protection for sensitive goods. This popular mailer is as light as air and as protective as a cushion. The outer layer of robust FSC® kraft paper offers a high level of tear-resistance while the strong air cushion is shock- and water-resistant. AirPro is the ideal solution for small and delicate goods – anything that needs protection in the mail.

Padded bags

Good for you and good for the environment. The padded bags wrap your contents in a soft protective cushion: the filling is 100% recycled paper, the outer layer is strong FSC® kraft paper. This packaging is fully recyclable in the waste paper without any material separation required. Our padded bags come in a wide range of sizes, with and without peel & seal closure.

All-board mailers

Elegant and professional, robust and protective. All-board mailers combine good looks and protective qualities. The strong cardboard wraps the contents and protects them from creasing and moisture. Score lines that run parallel to all four edges let it expand with your contents and your business. Fill it with reports, documents and certificates that you don't want to put to risk. The bags are fully printable and transport your design to the recipient.

Expanders

The expander is a great all-rounder: It's as good for a couple of sheets of correspondence as it is for a bundle of papers or clothing. The strong paper provides great protection and always maintains a smart and professional look, no matter if white or brown paper. The best finishing touch is always your own logo and design. Our expanders are available in endless sizes and qualities.

Customized solutions and printing

If the standard range is just not right for you, we develop solutions according to your needs. Just let us know what you need – and together with you, we will create the best packaging to match your requirements.

To turn your packaging into a brand messenger, we print your design and logo on almost every product in our range. We can print in a rainbow of colours, add varnish or embossing. Our experts are happy to consult you!
